

VITALITY FOUNTAIN
CLINIC

MICRONEEDLING

WHAT IS MICRONEEDLING?

At The Vitality Fountain Clinic we use a specialized skin needling treatment called Microneedling which is the application of very fine short needles into the skin which stimulates the skin's natural repair process to produce collagen and elastin. This will tighten and rejuvenate your skin.

For facial therapies we use the advanced DERMAPEN, while for body therapies we use the DERMAROLLER system.

WHO IS A GOOD CANDIDATE FOR FACIAL MICRONEEDLING?

Anyone looking to improve skin irregularities and look younger, hyperpigmentation, acne.

HOW MANY TREATMENTS DOES ONE NEED?

A single procedure will show some changes but a series of 3-6 sessions 6 weeks apart is ideal for optimal results.

HOW MUCH DOWN TIME IS EXPERIENCED?

Majority of our patients will experience slight bruising, swelling and redness for 48-72 hours.
